Exercises.

You will need to select the MOVIES database to work from.

1. List all writers who have written scripts only for awarded movies.
2. Produce a list of actors together with the movies for the actors who have played at least two different roles in the same movie.
3. List all directors who have played a role in movies not directed by them.
4. List all actors who have played the same role in more than one movie.
5. List all directors who have participated as actor in any of the movies directed by them.
